Art Unit: 2736

1. Claims amended in the response filed 4-10-2000 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: newly proposed claims pertain to a system for setting retrieval conditions corresponding to an icon, and receiving icon shape and position information, which does not require static and dynamic information parts as required by originally filed claims 1-4. Originally filed claims 1-4 could have displayed a location on a map without receiving icon shape and position information, which would have allowed for a completely different map display system.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 1-48 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP 821.03.

If it was applicant's intent to select a non-elected group of claims in the continuing application, such should have been filed as a Divisional CPA. Since this application was filed as a regular CPA, applicant is held to the originally elected group.

2. The amendment filed on 4-10-2000 eliminating all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP 821.03). The remaining claims are not readable on the elected invention because newly proposed claims do not claim static and dynamic information parts, and claim icon shape and position limitations not found in the elected claims.

Art Unit: 2736

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
